A Solid Wood Option & Lag Bolt Construction Make Premium Plus Our Most Durable Door

Rogue Premium Plus Doors are assembled with our standard 5/8" x 5" hardwood dowel pins. Then, for added strength and protection to the top and bottom rail joints, we apply additional glue and secure those joints with a 3/8" x 6" steel lag bolt.

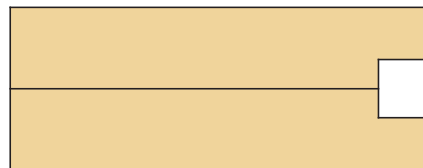

Solid Wood Option

Many door companies build their doors with paper-thin veneer. We use nothing less than 1/16-inch thick veneer, which provides excellent strength, look and feel. We believe anything less runs the risk of veneer bubbling, core bleedthrough, or separation over time.

Our Standard 1/16" Veneer

With our Rogue Premium Plus option you will receive a solid door made from two pieces of laminated lumber. This sturdier option provides superior resistance to inevitable wear and tear.

Rogue Premium Plus Solid Wood

If a compression or a scratch occurs in the door, our solid wood option allows for a much easier repair.

The Rogue Premium Plus 5-Year No Overhang Guarantee

We back our Rogue Premium Plus Doors with a limited 5-Year No Overhang Warranty so you can be assured of a lasting value.
